

Testing data analysis tool

CAM-App

1. Open the CAM-App
 - locally:
 - i. download the CAM-App from the GitHub repository: <https://github.com/Camel-app/DataAnalysisR> (use `.git` or download it manually -> green button "<>Code" -> "Download ZIP")
 - ii. if not already installed, download [R](#) and [RStudio](#)
 - iii. open the file `app.R`, install packages if needed, click on "Run App"
 - online (! disadvantage: App is way slower):
 - i. open the link: https://fennapps.shinyapps.io/CAMtools_CAMapp/
2. Try to break the data analysis tool... XYZ upload / pre / post processing
