

Testing the administrative panel

Webpage to set up CAM studies without the need for coding

1. Open the following link:

<https://dashboard-vercel-8aen53m4y-fennstatistics.vercel.app/>

If you are not familiar how to log in please read the online documentation: <https://camtools-documentation.readthedocs.io/en/master/Set%20up%20study/#general-procedure>

2. Try to break the administrative panel focus on

Important remark: to log in (<https://dashboard-vercel-8aen53m4y-fennstatistics.vercel.app/register>) you could use the following test account:

Email: testaccount@test.com

Password: abc123

- the pages, when you are not logged in
 - Landing Page (Home)
 - More information (button on landing page)
 - Apply Account
 - Log in
- the pages, when you are logged in
 - Landing Page (Dashboard)
 - Enter experiment (button on landing page)
 - Add experiment (button on landing page); try to create a study and collect data
- Be free and explore 😊
